Hyderabad, India

Summary

Software Engineer with 2.1 years of experience in enterprise application support, integrations, and Oracle CC&B. Skilled in JavaScript, React.js, Node.js, Express.js, MySQL, MongoDB, REST APIs, and Git. Seeking opportunities as a Full Stack JavaScript Developer to leverage both enterprise software experience and modern web development skills.

Experience

IBM (May 2022 – June 2024)

Associate Software Engineer

Project Name: ATCO LTD / MANITOBA-AMS

Particulars: Oracle Integration Cloud (OIC), IBM Sterling File Gateway, MQ Server, Oracle Integrations, Oracle CC&B.

- Worked on Oracle Customer Care and Billing (CC&B) application development, support, and maintenance.
- Developed and modified business logic, configurations, and system enhancements based on business requirements.
- Involved in system integration activities using Oracle Integration technologies.
- Investigated and resolved production incidents, service requests, and integration-related issues.
- Collaborated with cross-functional teams and business users to analyze issues and implement solutions.
- Ensured timely incident resolution and adherence to SLA commitments.

Training:

- AWS Certified Cloud Practitioner – IBM SkillsBuild
- Full Stack Development – IBM SkillsBuild
- Android App Development – Naresh I Technologies

Projects:

Amazon Clone | HTML, CSS, JavaScript

- Developed an Amazon-inspired e-commerce web application using JavaScript.
- Implemented product listing, shopping cart, checkout, orders, and tracking features.
- Used modular JavaScript for better code organization and maintainability.
- 🔄 Currently enhancing the application with additional features and improvements.

Personal Portfolio Website | React, JavaScript, CSS

- Built a responsive single-page portfolio website using React.
- Implemented smooth scrolling navigation and mobile-friendly hamburger menu.
- Developed reusable components and responsive layouts using modern CSS.
- Integrated GitHub, LinkedIn, and resume download functionality.
-

Vercel: <https://portfolio-with-react-zeta-opal.vercel.app/>

Login/Signup Authentication

React.js | Node.js | Express.js | MySQL | MongoDB | JWT | bcrypt

- Built a secure login and signup system using React and Node.js.
- Implemented JWT-based authentication and protected routes.
- Secured user passwords using bcrypt hashing.
- Connected React frontend with Express backend using Axios.
- Integrated MySQL & MongoDB databases for user data management.
- Deployed the application using Vercel and Render.

Features: User Registration, Login, JWT Authentication, Password Hashing, Protected Routes, REST API Integration.

MySQL - Vercel: <https://login-authentication-using-node-js.vercel.app/>

Mongodb – Github Pages : <https://nanigudivaka.github.io/Login-authentication-using-MongoDB/>

Skills:

Frontend: HTML, CSS, JavaScript, React.js, Bootstrap/Tailwind

Backend: Node.js, Express.js, REST APIs

Database: MySQL, MongoDB

Tools: Git, GitHub, Postman, VS Code

Software and Tools used:

- ServiceNow
- Oracle Integration Cloud (OIC)
- IBM Sterling File Gateway
- Git & GitHub
- Postman
- Visual Studio Code

Deployment Platforms & Cloud Platforms:

- Vercel
- Render
- Railway

OS Platform: Windows, Linux

Education:

Vinayaka Missions University (VMU)

M C A: Master of Computer Applications. CGPA: 7.09
